Sun Air Jets Completes ARG/US Platinum, ACSF, and IS-BAO Safety Audits

July 2016 – Camarillo, CA – Sun Air Jets recently completed the ARG/US Platinum, Air Charter Safety Foundation, and IS-BAO Level II audits, which were 3 of the 5 major safety audits the company commits to every 2 years.

In addition to the ARG/US, ACSF, and IS-BAO audits, Sun Air Jets has completed audits by Wyvern LTD and Executive Jet Management. This makes Sun Air Jets one of only a handful of operators world-wide, and the ONLY operator in California that is audited and certified by the 4 recognized charter safety auditors and EJM.

"Sun Air Jets is completely dedicated to the highest possible standards of safety in everything we do," stated Sun Air's Brian Counsil, its President and COO. "By inviting the 5 toughest auditors in the industry to examine our operations and safety programs, we verify every two years that we are one of the safest operators in the industry and are not afraid to prove it."

About Sun Air Jets-
