

A full service corporate aircraft operator in Southern California with locations in Van Nuys and Camarillo is seeking an experienced and qualified **Corporate Jet Maintenance Technician** at our **Van Nuys** facility. In addition to jet maintenance, the company provides aircraft management, on demand charter, aircraft fueling, and hangar space. The maintenance department is an FAA certified Part 145 Repair Station capable of a wide range of aircraft maintenance, inspections, warranty work, non-scheduled repairs, engine work and limited avionics. This position could focus on a variety of corporate jet aircraft including but not limited to the following manufactures Gulfstream, Bombardier Global / Challenger, Falcon and Cessna series jet aircraft. The primary focus is Gulfstream aircraft.

Description:

Under minimal supervision, perform inspections, maintenance, troubleshooting of moderate to advanced complexity on all aircraft systems. **This is a full time position located at Van Nuys.**

Essential Functions:

- Communicate as required to receive and understand work assignments.
- Perform medium to complex aircraft maintenance and troubleshooting.
- Performs scheduled maintenance on aircraft systems and components in accordance with FAA regulations, manufacturers' recommendations, and the company manual and policies.
- Handle unscheduled maintenance and repairs of aircraft as needed.
- Properly use and maintain company facilities and equipment ensuring they are clean and safe.
- Ensures the maintenance procedures and documents (including computer records) are accurate, current, and in compliance with applicable company and government regulations.

Required Qualifications:

- 3+ years of experience working with corporate jet aircraft
- Valid Driver's License
- Team orientated and self-motivated

Desired Qualities:

- Experience with any of the following aircraft a plus! Gulfstream, Falcon, Legacy.
- Valid Airframe & Powerplant license
- Factory or Formal training a plus (not mandatory)

**Compensation is very competitive and adjusted to match skill and experience level. Opportunity for advancement and growth within the company is up to you. Benefits included.*
