

 **SUN AIR JETS**

Private Jet Charter | Aircraft Management | FBO

Our Mission

TO DELIVER A JOYFUL AND UNSURPASSED PRIVATE AVIATION EXPERIENCE
THROUGH PASSIONATE DEDICATION TO EACH OF OUR CLIENTS AND EMPLOYEES.

Welcome to Sun Air Jets!

Along with maintaining the highest safety standards in the industry, Sun Air Jets remains dedicated to serving clients with the highest levels of aircraft operating expertise and personable customer service.

Whether your aviation needs include private jet charter, aircraft management, or fuel and luxury hangar space, Sun Air Jets is exceptionally qualified to provide you with professional, personalized and economical services to satisfy your every need.

While you can obtain the products and services that we provide from others, ours is a service business. The significant value-added benefits of working with Sun Air Jets is the direct relationship that you will enjoy with members of our team while we deliver unmatched professional services coupled with the security of our industry-leading safety credentials. We're very proud of our story and our employees who go above-and-beyond your expectations every day so that you can enjoy all the utmost pleasures of private aviation.

Give us a call and let us know what you need. We look forward to working with you!

President and Chief Executive Officer

A Boutique Private Aviation Company

Conveniently located in Los Angeles and Ventura Counties and operating globally, Sun Air Jets provides private jet charter services, aircraft management, maintenance, private luxury hangars, and a full-service FBO.

Privately owned and rated as one of the safest operators in the country, we remain dedicated to serving clients with the highest levels of aircraft operating expertise and world-class customer service.

Built on Honesty, Integrity & Transparency

Sun Air Jets was founded in 1999 by an aircraft owner who realized the aircraft management industry did not always work in the best interest of its clients. Since its inception, we have operated on the principles of honesty, integrity, and transparency. This dedication results in an exceptional and trusted experience for aircraft owners and charter customers alike, as well as optimized financial results for our clients.

Industry Experience

- Established in 1999
- 50,000+ hours of accident-free flying

- Camarillo, CA | KCMA
- Remote locations throughout the U.S.

FAA Certificates

- Part 135 | Air Carrier
- Part 145 | Certified Maintenance Repair Station

COMMITMENT TO SAFETY

TOP SAFETY RATED OPERATOR

Sun Air Jets is dedicated to our high quality, risk-averse safety program that permeates our company culture and processes. With a flawless safety record spanning over 20 years and 50,000 flying hours, our clients can rest assured their aircraft will operate at the highest possible levels of safety.

A Distinctive Achievement

Sun Air Jets concurrently possesses all four of the highest levels of the safety audit certification standards in the air charter industry: IS-BAO Stage 3, WYVERN Wingman PRO, ARGUS Platinum, and Air Charter Safety Foundation (ACSF) IAS Audit Registered, an achievement held only by five domestic operators.

We are also a preferred vendor to Executive Jet Management (EJM) and Wheels Up, which require additional on-site audits of our flight operations safety standards, both are difficult distinctions to achieve and maintain.

A photograph of an airplane engine and wing at an airport gate, overlaid with a dark blue filter and the text "MAKING CHANGES TODAY FOR A BETTER TOMORROW". The image shows a close-up of a large jet engine mounted on the wing of a commercial aircraft. The engine's fan is visible, and the wing's structure is detailed. In the background, there is an airport terminal building with large windows and a covered walkway. The entire scene is bathed in a deep blue light, creating a moody and futuristic atmosphere. The text is centered in a gold, serif font.

MAKING CHANGES TODAY FOR A BETTER TOMORROW

SUSTAINABLE OPERATOR

AS A BUSINESS LOOKING TOWARD THE FUTURE, SUN AIR JETS REALIZES THAT RESPONSIBLE PRIVATE JET OPERATORS HAVE A DUTY TO DO ALL THEY CAN TO REDUCE THEIR IMPACT ON OUR ENVIRONMENT

Carbon Offsetting

Sun Air Jets compensates for the carbon emissions released by our airplanes. We are committed to all charter flights meeting a 4AIR Level 1 Carbon Neutral achievement through our partnership with a leading carbon offsetting company, 4AIR. 4AIR uses the proceeds from our support to fund emission reducing projects that are dedicated to reducing harm to the environment. The credit gained by carbon offsetting ensures that any emissions are balanced with sustainable solutions elsewhere.

Green Aviation Business

Sun Air Jets' facilities are Certified Tier 1 Green Aviation Businesses via NATA. This commitment is designed to reduce greenhouse gas emissions, increase use of environmentally friendly energy sources, reduce waste and encourage sustainability operation-wide. Our facilities feature sustainable design with state-of-the-art green technology like; solar roof arrays, EV charging stations, refillable water stations to eliminate single-use drinkware, motion-sensing LED lighting, and more.

Sustainable Aviation Fuel

Sun Air Jets is one of the first Fixed Base Operators to offer Sustainable Aviation Fuel (SAF). As a result, there has never been a better reason to utilize this resource to cut carbon emissions by up to 23%. Sustainable fuel is derived from organic and renewable materials instead of being traditionally refined from petroleum. As a result, it represents a more ethical choice, and also allows our clients and company to reduce our carbon footprint.

Friendly Flyer

Noise pollution affects the communities in which we operate, which is why we voluntarily subscribe to the Fly Friendly Program. The program, established to recognize operators that achieve the highest level of noise regulation compliance, is briefed to our operational staff to ensure that the correct procedures are followed so that we may exist in harmony with our neighbors. The proof of this commitment is our repeated success in receiving the Friendly Flyer Award.

A COMPREHENSIVE NETWORK FOR A SEAMLESS EXPERIENCE

OUR NETWORK

OUR GOAL IS TO BRING YOU THE MOST CONVENIENT, SAFE AND EFFECTIVE SOLUTIONS FOR YOUR PRIVATE TRAVEL NEEDS

Our broad and convenient network of facilities consists of multiple locations designed to best suit your private aviation needs no matter where you are located. Whether your managed aircraft needs a temporary location for the short term or a more permanent solution to call home, we can help you find the perfect private, safe and secure option..

Our organization has designated teams assigned to each of our clients and locations to ensure timely and transparent governance of your private travel needs, both in the air and on the ground.

Our maintenance department is devoted to the safe and attentive care of your jet. This includes suggesting preemptive maintenance projects and upkeep that can help to avoid larger, more costly repairs. Projects can be coordinated and overseen at any of our locations or at a new location that would work best for your needs.

The goal of Sun Air Jets is to bring you the most convenient, safe and effective solutions for your personal travel needs. Our network of local and national bases are private, convenient and are only available to our clients and guests.

Van Nuys Airport | KVNY

Situated in the heart of Southern California's aviation hub, Sun Air Jets provides hangars at one of the busiest general aviation airports in the country. With one of the largest and newest facilities on the airport, our Van Nuys Airport location sets the standard for excellence in the industry. Experience this elite and private business aviation facilities as an ideal base for your aircraft.

Camarillo Airport | KCMA

Our Camarillo Airport facility is home to our company headquarters, as well as our full-service FBO. Nestled amidst the stunning landscapes of Ventura County, our state-of-the-art facility offers a prestigious and secure location for your aircraft. With a prime location just a short distance from Los Angeles, Malibu and Santa Barbara, you'll enjoy unparalleled convenience and accessibility.

LOCAL & NATIONAL INFRASTRUCTURE | REMOTE BASE LOCATIONS
CONNECTING DREAMS. ELEVATING JOURNEYS.

PRIVATE JET CHARTER

AN UNRIVALED CHARTER EXPERIENCE

WHETHER YOU'RE JETTING COAST-TO-COAST FOR BUSINESS OR FLYING HOME FROM YOUR LATEST GETAWAY ABROAD, SUN AIR JETS IS DEDICATED TO PROVIDING AN EXCEPTIONAL PRIVATE JET CHARTER EXPERIENCE

Personalized Service

From arranging the perfect jet for your trip to stocking the aircraft with your favorite meals and amenities, each charter flight is meticulously planned and personalized with white-glove service as a top priority. No detail is too small for our dedicated team.

Privacy and Convenience

We provide discreet and convenient service from the moment you contact us. Whether at one of our locations around Los Angeles or a private terminal worldwide, your privacy is a top priority of our team.

Versatile Fleet

Our charter fleet offers all sizes of private jets and elegant touches to fit the needs of your next flight, including the latest cabin technology, newly renovated cabin interiors, and complimentary WiFi.

Worldwide Travel Capabilities

Our private jet charter operation offers unparalleled global travel capabilities, providing seamless access to destinations worldwide. Experience bespoke luxury and convenience with our extensive fleet and expert charter services.

A METICULOUSLY CURATED
CHARTER EXPERIENCE

AIRCRAFT MANAGEMENT

SUN AIR JETS' MISSION IS TO FOCUS OUR TEAM'S EXTENSIVE EXPERIENCE TO BEST SERVE THE NEEDS OF OUR AIRCRAFT OWNERS. WE TAILOR THE AIRCRAFT MANAGEMENT EXPERIENCE TO FIT THE GOALS OF EACH AIRCRAFT OWNER.

Dedicated Flight Department

You'll enjoy the expertise of a dedicated account executive, available around the clock, who will manage all your aircraft needs. Furthermore, our comprehensive support team specializes in accounting, dispatch, maintenance, and other vital areas, ensuring the seamless operation of your aircraft.

In-House Maintenance

As an aircraft owner, you benefit from exclusive access to our certified FAA Part 145 Repair Station maintenance department, staffed by skilled technicians fully integrated into our robust safety management system. Your maintenance needs are in capable hands, ensuring top-tier safety and operational excellence.

Cost Savings

Owners can take advantage of our fleet discount rates on fuel, parts, maintenance, labor, crew training, insurance, subscriptions, and more. Our Charter team can also maximize the efficiency of your asset by chartering your aircraft to offset operating costs. Additionally, you can manage your expenses using our advanced aircraft management reporting portal.

Financial and Legal Support

We provide financial and legal consulting at no additional cost. As industry experts, we make sure all aspects of aircraft ownership are properly administered, including dry lease structures, sales and use tax exemptions, property tax appeals, and federal excise tax (FET) refunds.

National Infrastructure

Our dedicated aircraft management team delivers the same personalized service anywhere in the country. Our support infrastructure doesn't stop at our multiple Southern California base locations, offering aircraft owners a hands-on level of care no matter where your asset is based or where you're traveling to in the world.

A white private jet is shown in profile, facing left, against a dark blue background. The aircraft features a blue and gold stripe running along the fuselage. The tail is a T-tail configuration. The text "AN UNMATCHED OWNERSHIP EXPERIENCE" is centered over the aircraft in a gold, serif font.

AN UNMATCHED OWNERSHIP EXPERIENCE

FIXED BASE OPERATOR

SUN AIR JETS OFFERS AWARD-WINNING FBO AMENITIES AND FEATURES. AS A FULL-SERVICE 24/7 FBO, WE PROVIDE ESSENTIAL SUPPORT SERVICES FOR PRIVATE AND BUSINESS AIRCRAFT.

SUN AIR

WORLD-CLASS
MAINTENANCE
FACILITIES

MAINTENANCE

Factory Trained Technicians Dedicated to Flight Safety

OUR IN-HOUSE MAINTENANCE DEPARTMENT IS A WORLD-CLASS FAA CERTIFIED PART 145 REPAIR STATION, WHERE BOTH THE DEPARTMENT AND THE TECHNICIANS HAVE FAA OVERSIGHT. THE TEAM ENSURES CLIENTS' ASSETS ARE PROPERLY MAINTAINED, UP-TO-DATE ON INSPECTIONS AND ARE READY TO FLY WHEN REQUESTED

Factory Trained Technicians

We provide Flight Safety International aircraft manufacturer trained technicians on Gulfstream, Bombardier, Embraer, Dassault and Cessna airframes, as well as Honeywell, Rolls-Royce and Pratt & Whitney engines.

Exclusive Access

Our aircraft owners have exclusive access to Sun Air Jets' world-class maintenance department. Aircraft owners also receive unmatched labor and parts discounts.

Flight Safety

Our maintenance department has achieved the four major industry safety standards and participates in recurring maintenance technician training. While other operators may not require technicians to get OEM training, we strive to receive certified factory training on all brands of aircraft we operate.

In-House & Hands-On Care

We provide each of our aircraft owners with transparent maintenance coordination for their aircraft. We use state-of-the-art aviation maintenance software to ensure maximum accuracy, cost savings and reduced downtimes.
